"The question is not whether AI will transform everything. It already has."

The $2.52 Trillion Wave

Global AI Spending by Category (Gartner, 2025-2027)

AntimatterAI operates across 3 of the 5 fastest-growing segments

The Agentic AI Explosion

From Copilots to Agents: The $52B Shift

2024	2026	2028
<1%	~15%	33%
of enterprise apps include agentic AI	current adoption (est.)	Gartner prediction

48.5% CAGR

Multi-agent systems

62.7% CAGR

Vertical AI agents

$35-45B

Agentic AI spend by 2030 (Deloitte)

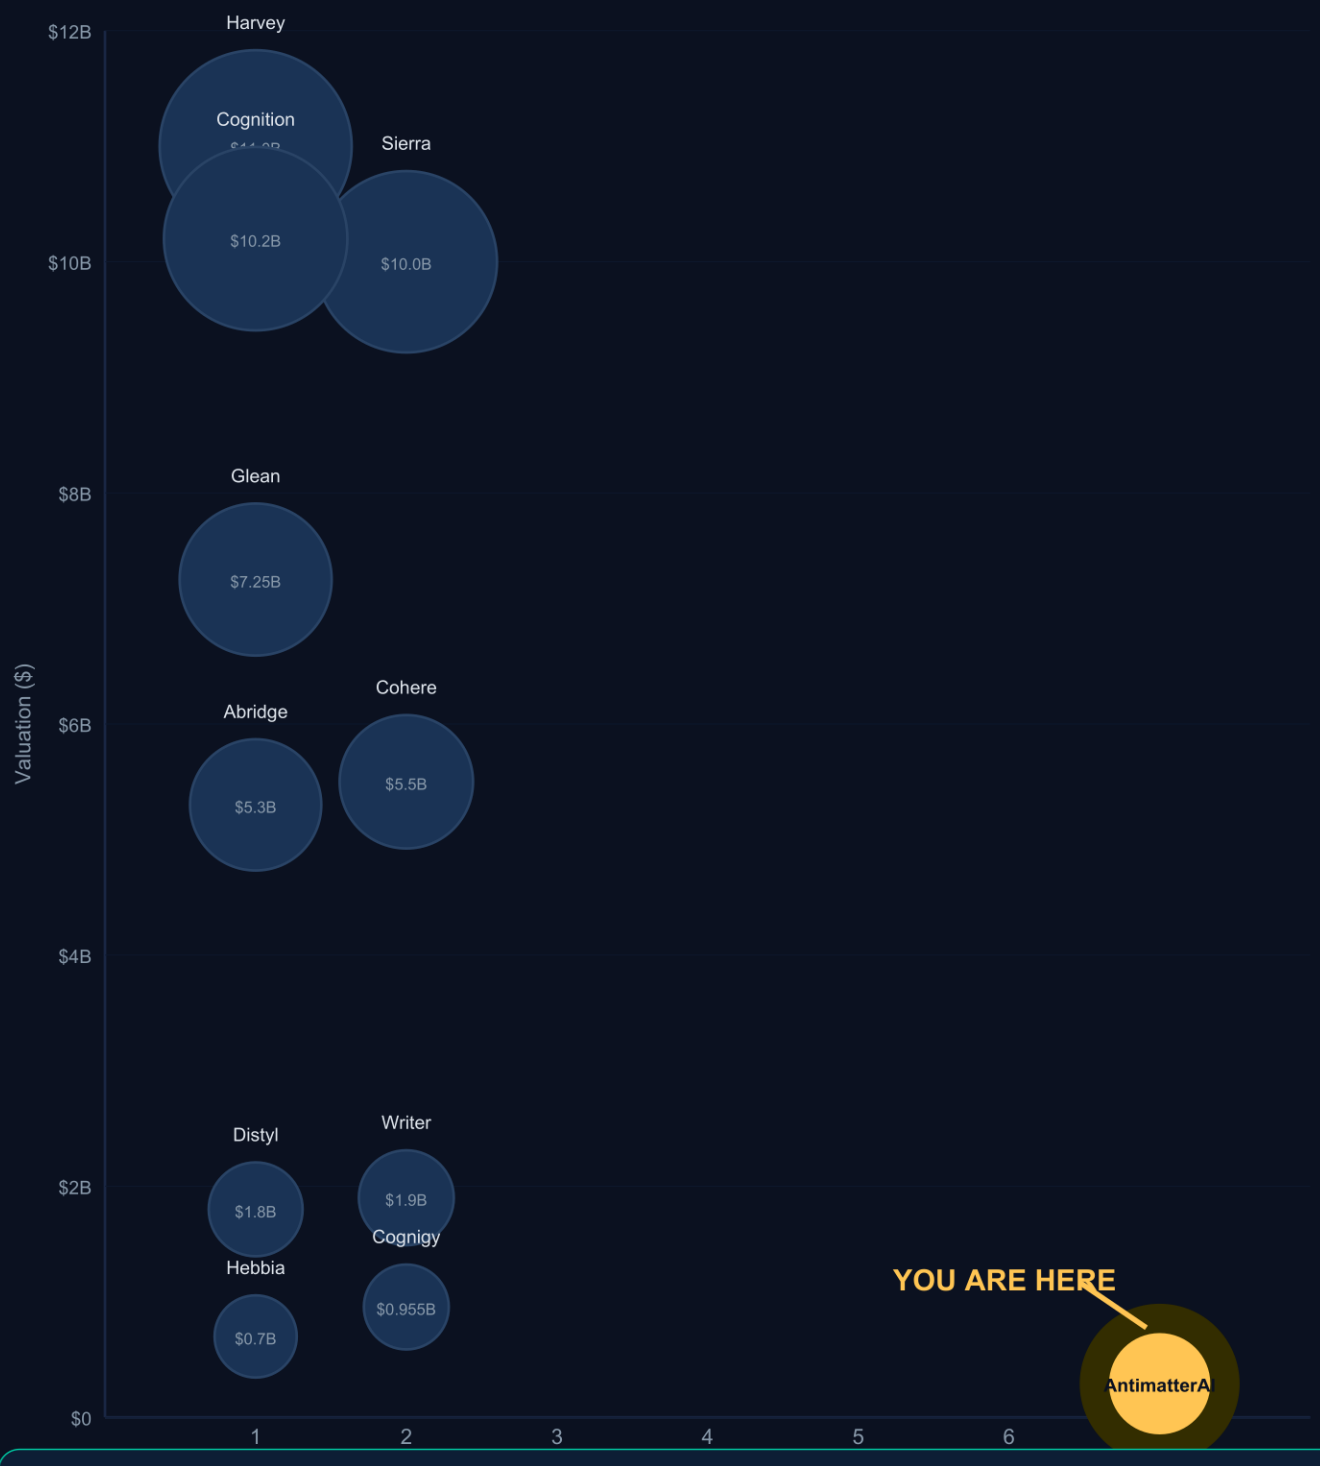
79%

Companies adopting AI agents with measurable value

ATOM was built from the ground up as an agentic framework.
Not retrofitted. Not rebranded. Native.

The Unicorn Landscape

— And One Outlier



Every company above has fewer products and more funding. None has a perfect vendor matrix score.

The Only Perfect Score

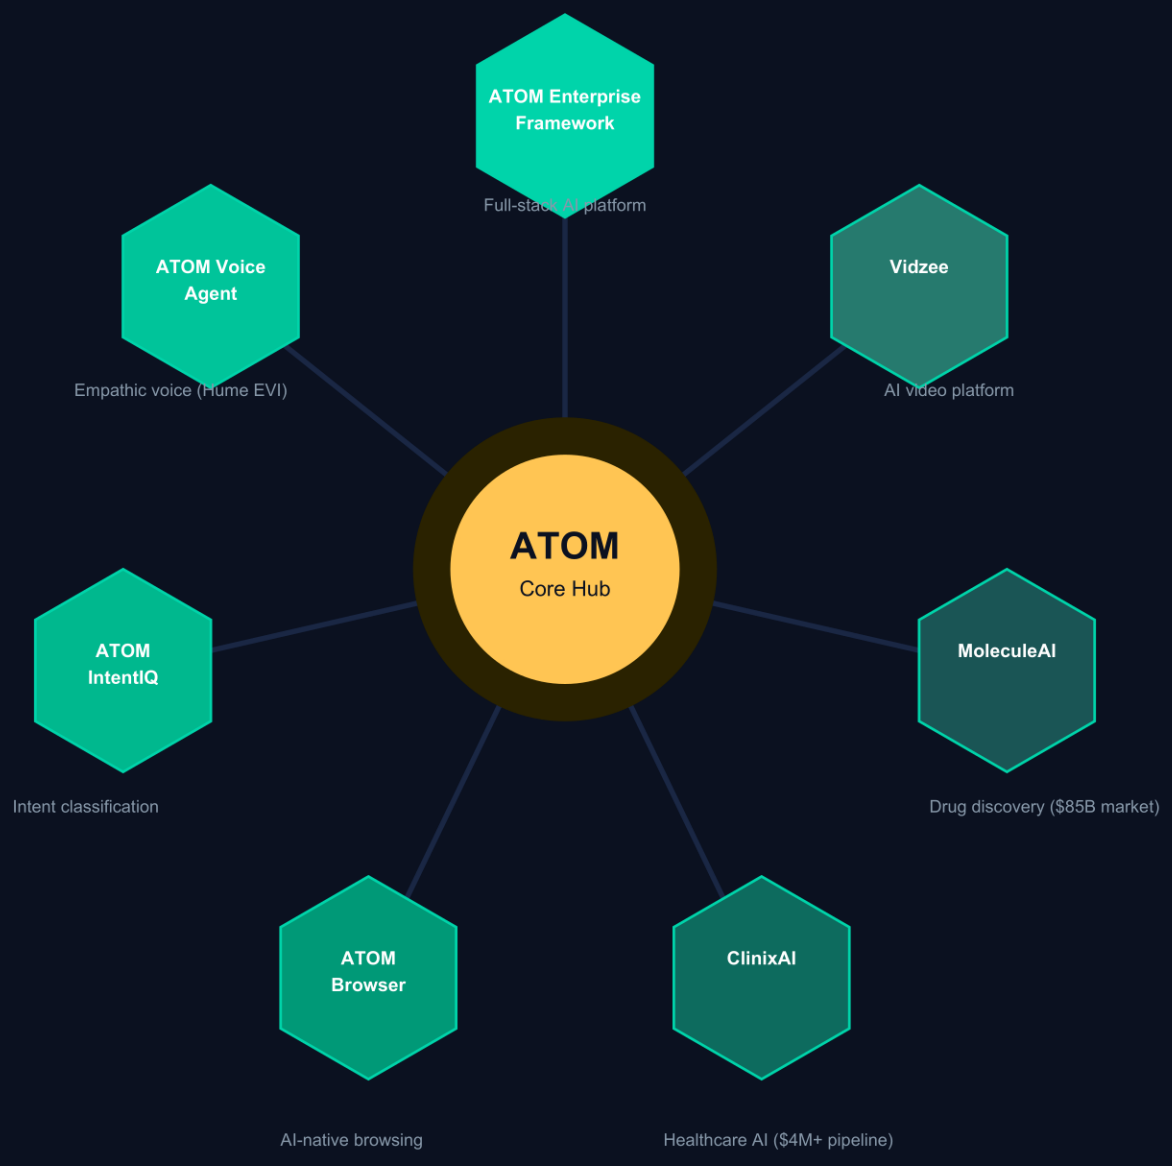
Vendor Matrix Dominance — 25 out of 25

The Five Pillars of 25/25:

1. **Framework Core**
   Full-stack agentic AI architecture
2. **Deployment Options**
   VPC, on-prem, edge, cloud — all supported
3. **Provider Abstraction**
   Model-agnostic: swap any LLM provider
4. **Governance Layer**
   Enterprise-grade security & compliance
5. **Edge + GenUI**
   Exclusive capabilities — no competitor offers both

Seven Weapons. One Framework.

Zero Competitors Match This.



What It Would Cost to Rebuild This

IP Replacement Cost Analysis

TOTAL **$34M – $64M**

$60M
What you pay

=
Buying IP at replacement cost in a 42% CAGR market

$34M–$64M
What it costs to build

ClinixAI: Disrupting a $262B Problem

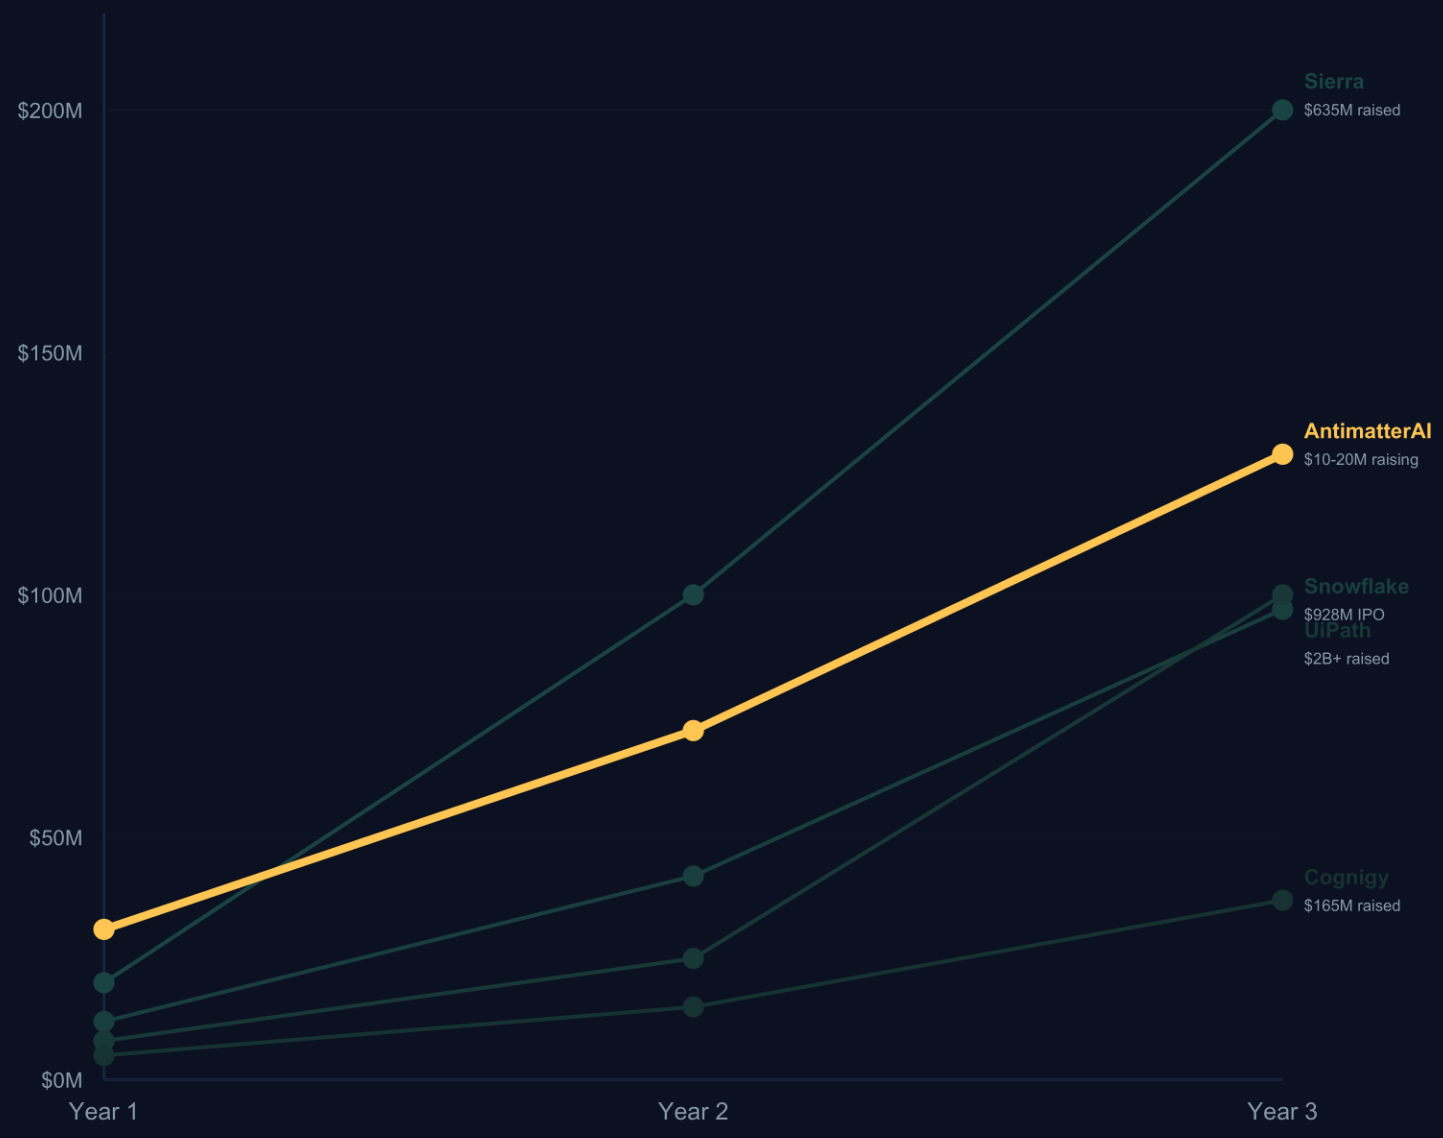
The Company That Outgrows Them All

— With 98% Less Capital



Year 3 ARR of $129M exceeds Cognigy at acquisition ($37M → $955M valuation)

AntimatterAI projected trajectory with 98% less capital than any comparable company

The New Speed of Money

Months to $100M ARR

With $4M+ pipeline in hand, AntimatterAI's first MRR is measured in weeks, not years.

The AI revenue acceleration curve has broken every historical precedent.

First Revenue = Instant Re-Rating

Step 1
5 Customers
× $100K/mo

$500K MRR

→

Step 2
× 12 months

$6M ARR

→

Step 3
× 20-30x
multiple

$120M–$180M

$60M entry → $120M–$180M = 2-3x in months

Bear Case	Base Case	Bull Case
$60M	**$100M+**	**$250M+**
IP floor	18 months	24 months

Fortune 500 Clients. Production Systems.

Real Data.

Lowe's
Production

Multi-agent supply chain, 1,700+ stores

Cognizant
Production

AI ops for 350,000+ employees

Trimble
Production

Construction & engineering AI

E2open
Production

Fortune 100 supply chain logistics

Toyota
Enterprise

Manufacturing process intelligence

OWASP
Technical

AI security standards, 2.5M+ monthly visitors

Injazat
Enterprise

UAE government digital transformation

These are not pilots. These are production systems processing real business data.

1

Agentic AI Inflection

33% by 2028 (up from <1% in 2024)

2

Healthcare Regulatory Tailwind

CMS mandating automation 2026

3

Capital Market Flood

$2.52T global AI spend

4

Data Sovereignty Wave

75% top-3 criterion, EU AI Act 2026

5

GenUI Category Creation

ATOM is the ONLY vendor

Built By Operators, Not Academics

BO

Ben O'Leary

Co-Founder & Strategic Architect

Domain expertise across enterprise AI, healthcare, and strategic architecture. Visionary behind AntimatterAI's multi-product strategy.

PW

Paul Wallace

Co-Founder & CTO

Former enterprise technology leader. Architect of ATOM framework. 20+ years enterprise engineering.

MB

Matt Bravo

Co-Founder, Design & Technology

Design-driven technologist bridging UX and AI. Creator of GenUI concept and ATOM's visual intelligence layer.

Self-funded. Self-built. 99+ projects delivered. $0 external capital.

The Partnership Fortress

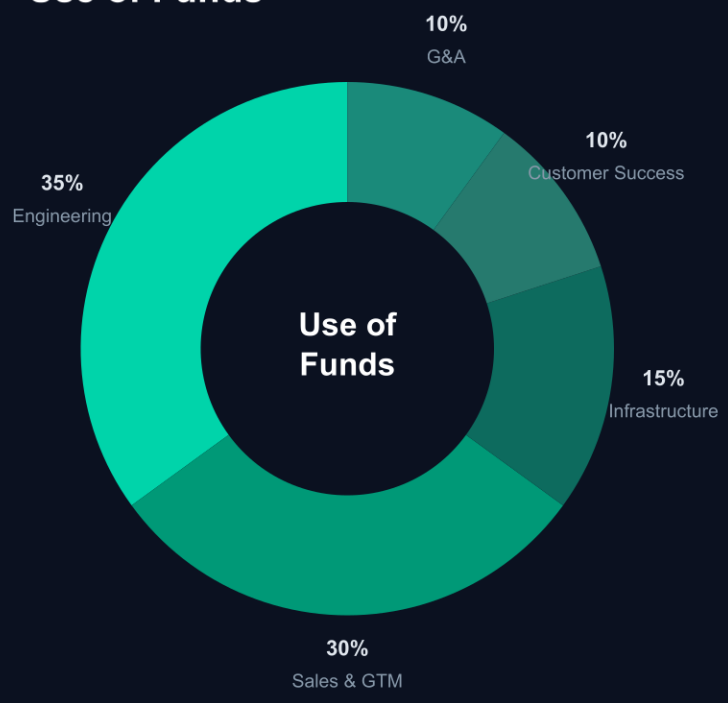
Strategic Alliances Accelerating Without Dilution

The Ask

Series A: $10–20M at $60M Pre-Money

$10-20M	$60M	$0
Raise Amount	Pre-Money	Prior Dilution

Use of Funds



At $60M, you get:

- 7 production products — no vaporware
- 25/25 vendor matrix — industry's only perfect score
- $4M+ ClinixAI pipeline — revenue in weeks
- Fortune 500 client base — enterprise validated
- $34-64M IP at replacement cost — buy at floor

Companies with ONE product,
in ONE vertical,
with LESS technical depth
are raising hundreds of millions
at billion-dollar valuations.

AntimatterAI has SEVEN products
across THREE high-value verticals
with ZERO dilution.

The question isn't whether $60M is the right number.
The question is how long this entry point remains available.
